

Farmstead Records

Name: _____

Years: _____

Farmstead Activity

Activity	Date Applied	Comments
Well Decommissioning	May 3, 2006	Sealed well by certified well driller. Hand-dug well near old homestead in Section 9.
Pesticide Container Disposal	July 16, 2006	Containers triple rinsed and stored away from potential surface and ground water contact.
Windbreak Maintenance	July 17, 2006	Tillage operation on existing windbreak to control weeds.
Buffer Installation	October 25-31, 2006	Installed vegetated buffer strip to control runoff water from corral area. Installed according to NRCS and Montana DEQ specifications.
Pipeline Check	November 5, 2006	Drove pipeline route to inspect for any surface signs of leaks. Drained tanks in preparation for winter.
Xeriscape Planting	April 2007	Established native, drought tolerant community of forbs and shrubs in farmstead area. Goal is to promote game bird habitat.
